

10TH ANNIVERSARY

We Robot

SEPT 23 - 25, 2021

University of Miami School of Law

werobot2021.com

WE ROBOT is the premiere North American conference on law and policy relating to Robotics. The conference began at Miami Law in 2012 and will return in 2021 to celebrate its tenth year after editions at Stanford, University of Washington, Yale, and University of Ottawa. From September 23 – 25, 2021, We Robot will welcome a geographically and professionally diverse audience to both in-person and streamed events; and challenge attendees near and far to consider the transformative technology that is Robotics and AI.

We Robot is powered with the support of organizations like yours. With unique new challenges in 2021, we hope to welcome (in-person and virtually) lawyers, engineers, philosophers, robot builders, ethicists, anthropologists, regulators, and students who are on the front lines of robot theory, design, or development.

WILL YOU JOIN OUR SUPPORTERS?

The Arsht Ethics Initiatives
AUSVI
Google
Hollywood Media
Microsoft
The Omidyar Group
